BILL COOK BUICK CO.

AN OPEN LETTER TO INTELLIGENT PEOPLE:

Me don't presume to be able to "clean up" the automobile business. Frankly, we're sure it's only a few who are making a bad name for all of us; but we'd like to pose a few questions for you to answer for yourself.

- Has a dealer ever added as much as \$300 to a base or advertised price, calling it Federal Excise Tax? This tax is already figured in the base price of all American cars.
- Did a Sales Manager ever "cry" for an extra \$50 to \$200 to make up for a deliberate mistake a salesman made in misquoting a trade cash difference?
- Have you ever had difficulty in seeing the car being advertised? Were you told it was "just sold?"
- 4. After taking delivery of a car at an agreed price, have you had the rude awakening that the monthly payments turned out considerably more than quoted! (This is one way of per-mitting you to "write your own deal.") The dealer made the deal, didn't he?

The point we'd like to make is, that if you'd like to do business with people who are interested in selling you s car at an Konest Bargain, and who are anxious to keep your business, you'll be interested to know that in 1965 this company, operating on legitimate and fair-trading principles, sold over 2.000 sutcessive this any not approximate this any not approximate the selling principles, it did make us one of the largest Buick Agencies in the Midwest Zone.
